

You be the Jury #1

written by Nancy Brent | December 15, 2011

In previous bulletins, topics such as professional negligence, liability, and the burden of proof have been covered. It might be interesting for you to try and apply some of the principles presented in those bulletins to an actual case (1). Your role is as a juror and you must make a decision as to the negligence or non-negligence of the nurse and/or the hospital defendants in the case.
