

[CPH Insurance at the 50th Annual CAMFT Conference!](#)

written by CPH Insurance | June 15, 2016

The California Association of Marriage and Family Therapists, or [CAMFT](#), spent the last 50 years providing excellence and high standards in representing licensed marriage and family therapists. [CPH Insurance](#) was proud to attend the 50th annual conference last week in India Wells, California, as an exhibitor!

We were lucky to participate in several amazing discussions by top members of the medical community. From [PhD Joan Borysenko](#)'s "Mind-Body" lecture, to the top physicians from the UCSD panel on Collaborative Care discussing Family Therapy, we were excited to learn the latest in health, addiction, pathology, relationships and technological change from the impressive keynotes at CAMFT.

In addition to engaging in the cutting edge of medical thought at CAMFT, we manned our own booth for allied and mental health professionals!
