

The Unique Benefits of CPH Personal Trainer Insurance

written by CPH Insurance | January 3, 2017

Having high quality, affordable [personal trainer insurance](#) provides peace of mind, financial and legal support in times of need, and a strong foundation on which to build your fitness trainer career. If an incident occurs in your practice, you can count on CPH Insurance to have your back!

CPH offers a variety of standard benefits to you as a fitness trainer, but we also strive to do even more, setting ourselves apart from other insurance carriers. We create policies tailored to your certifications and areas of expertise.

We offer portable coverage that follows you no matter where you are working – in a big box gym, in your own studio, in a client's home, at a special venue or place of business, or outside in a public park or on a hiking trail.

We also provide various discounts for many of our clients, including:

- 50% premium credits for part-time professionals, and newly licensed or certified professionals (because when you are starting out, or only working a few hours a week, we want to help keep your operating costs low!)
- 10% discounts for WITS students or alumni.*

Our system is easy to use and our customer service is exemplary. We offer:

- Online applications, which can be completed in minutes with real time response
- Emailed policy documents (coverage begins immediately, no waiting for a card)
- LIVE agents when you call us, instead of phone trees and automated menus
- A new and improved customer portal where you can check your coverage 24/7

Check out our additional valuable resources as well. Our website provides access to:

- A monthly “[Avoiding Liability Bulletin](#)” article by a renowned attorney in the fitness space. These articles provide important risk management information that is tailored specifically to wellness and fitness professionals.
- Bi-weekly blog posts that provide advice and guidance to fitness trainers across the country as well as covering the latest trends and news in the fitness world.

We also have a wide network online with other valuable resources, including:

- Our partners who also have high quality information and tips to share
- Social media accounts on the platforms you already use, so you can follow us and stay up to date

Sign up for personal trainer insurance with CPH today and get coverage you can trust from a company you can count on!

*conditions and proof of student or alumni status apply
